NOTICE

GOOGLE GEMINI FREE 12 MONTH STUDENT PLAN FOR STUDENTS

This is to inform all students of MBA, MCA, BBA, BCA, B.Com, BA Mass Comm that Google has launched a limited-period offer providing eligible college students with 12 months of Google AI Plus (Gemini) completely free of charge, along with access to a dedicated Student Hub featuring study notebooks, flashcards, practice quizzes, and AI-assisted research tools.

Students are encouraged to avail this offer for academic support — literature review, study planning, note organization, and research assistance.

Benefit to the Students:

- 2x higher Gemini usage limits compared to the free version
- Gemini Omni and 400 GB of Google One cloud storage
- Student Hub — study notebooks, flashcards, and practice quizzes
- Diagnostic quizzes and bite-sized lessons generated from your own class notes/PDFs
- Deep Research and interactive 3D visualizations via Gemini Live

Stepwise Instructions to avail this Plan:

Step 1: Visit one.google.com/ai-student on your mobile or laptop browser.

Step 2: Sign in with your personal Gmail account. Use your own personal Gmail ID — NOT a college-issued Google Workspace account. Workspace accounts are not eligible at signup.

Step 3: Verify your student status (SheerID). When prompted, search for your institution in the School field and select: ***"School of Management Sciences (Varanasi, Uttar Pradesh)"*** — this is the correct, properly listed entry.

Step 4: Complete verification — instant or manual. Enter your full name (exactly as on your college ID), date of birth, and college email if available.

If instant verification does not succeed, you will be asked to upload one document. Keep the following ready in advance:

- College ID card (front and back), clearly photographed, showing your name, college name, and current academic year
- A recent fee receipt (within the last 3 months) showing your name, college name, and payment date
- Aadhaar or PAN card — useful if your college ID shows only initials instead of your full name

(Manual review can take 3-5 working days. The document upload link is valid for 7 days only, so upload promptly.)

Continue to Page 2...

Step 5: Add a payment method and confirm. A valid payment method is required to activate the offer (for verification only; no charge during the free 12 months). The plan auto-renews at the standard monthly rate after 12 months unless cancelled before the renewal date. Students are advised to set a personal reminder to review or cancel before expiry if not continuing.

Step 6: Start using Gemini for your studies. Visit gemini.google.com/students to access the Student Hub. Create a study notebook, upload lecture notes or PDFs, and use the diagnostic quiz and generated lessons to organise your semester's study plan.

Important Notes:

- This offer is available only to genuine, currently enrolled college students — do not attempt to circumvent verification.
- If your document is rejected, check that your name and college name are clearly legible and re-upload a different document rather than the same one.
- For verification issues, use SheerID's own support channel; SheerID verifies eligibility only and does not control offer activation.
- Redeem the offer on or before **31 December 2026** — it will not be available after this date.

All students are advised to avail this opportunity at the earliest and put it to productive academic use.
